10 BUTTON RF PUSH BUTTON MODULE

WHAT IS IT?

A wireless 10 button, push button control module that has several fixing options.

Lithium battery powered so can be mounted anywhere without having to run cabling. The unit provides full scene programming.

Based upon the widely used 50x50mm Euro Module switch plate accessory standard.

Rako screwless switch plate kits are available in a selection of finishes including:

Satin Stainless Steel *

Polished Stainless Steel

Polished Brass

Black Nickel

Chocolate Bronze

Matt Black

Antique Brass

White Metal

The RCM100 wireless push button wall plate controller with 7 scenes, off and master raise and lower buttons

WIRE-FREE CONTROL

The RCM100 push button control module comes pre-configured for selecting 7 scenes, off and master raise & lower. The wall plate controllers are designed to be mounted anywhere, be it flush mounting to UK back-boxes or simply surface mounted to any flat surface using the pattress provided**. It is also suitable for all switch accessory plates that use a 50x50mm grid and cover plate arrangement.

Rakom coded radio transmission eliminates the need for any data or power cabling ensuring that the system can be installed with minimum fuss and disruption.

* As shown opposite the RCM100 module complete with RLF100-SS cover plate kit fitted.

** Surface mounting is only suitable for screw-fixing RVF-style flat plates and NOT screwless plate options.
